Our extensive fabric range will give you total creativity when choosing the look and feel of your vertical blind

Perhaps the most complete window furnishing option, vertical louvre blinds offer you maximum flexibility. The innovative design allows the louvres to be drawn neatly back to the side to offer unlimited clear views. The louvres can be rotated through 180 degrees allowing the user to totally control light levels within any room and yet maintain privacy.

The vertical fabric range is an eclectic mix of beautiful jacquard weaves and designs in contemporary colourways, seductive suedes, exotic grass effects and organic natural hues, all of which will create window blinds of pure distinction.

Available in 89mm(3 1/2") or 127mm(5") our vertical louvre blinds and are made to measure to meet the exact requirements for each of your windows. Our vertical blind fabrics feature finishes which allow them to be easily maintained to keep your blinds looking great for many years to come.

We offer a comprehensive collection of vertical fabrics that combines luxurious textiles and fabulous colours with your own unique decor to provide a window furnishing solution second to none.

Vertical louvre blinds are the most versatile of all modern window furnishings

Operating systems that provide rotation of louvres to allow you to combine privacy and light control to satisfy whatever mood you wish to create.

Louvre width choices across hundreds of different textile textures and colours combine to create a vertical collection that cannot be matched anywhere in the world.

In-house manufacturing expertise of the highest order combines with carefully selected weaves to create window furnishing textiles that carry the unique Louvolite signature.

All you could ever need is available within the collection, from classical clean simplicity to high performance solar control fabrics. Luxurious faux suedes and delicate sheers to blackout fabrics for total light control.

The most versatile window furnishing is also the most sophisticated. Rediscover how the vertical louvre blind can change the way you feel about window furnishings.

## BE COOL... STAY WARM... SAVE MONEY

Window blinds reduce solar gain in your home during the summer months.

Reducing heat build up provides a more acceptable room temperature and reduces air conditioning requirements, saving you money.

Window blinds reduce the amount of heat lost through windows when it's cold outside.

This thermal loss reduction helps the heat stay in your home when you need it and reduces your heating costs.

Window blinds help you "Be Cool and Stay Warm" providing improved living conditions and saving energy.
